

**POSITION:** Non-Life Risk Expert  
**LOCATION:** Brussels

---

### DESCRIPTION OF THE POSITION

Our client is looking for a Non-Life Risk Expert to join the Risk Management Department. This department manages the risk policy within the company, assess, analyse and supervise the risks and provide a global overview of all solvency requirements.

In a collaborative team, the Non-Life Risk Expert will be responsible for the following tasks:

- Measure, supervise, optimise and report on all components of Risk capital model for all non-life risks (SII SCR and internal model of the company)
- Define the local underwriting risks guidelines and make sure all teams are compliant to these guidelines
- Work on the ORSA report: Implement the Enterprise Risk Management to define, measure (through stress-tests, sensitivity analysis and back testing analysis) and optimise the non-life risk profile of the company
- Make sure there is a planning process for the Enterprise Risk Management
- Develop a risk framework for the actuarial model
- Ensure the company is compliant with the operational limits
- Act as a second line of defence for underwriting, pricing, new non-life product design and reinsurance, depending on the impact on venture capital and risk advisory limits.
- Contribute to the risk culture of the company and promote it internally.

---

### PROFILE

- Master's degree in actuarial science, mathematics or engineering
- At least 3 years of experience in non-life risk analysis (modelling, reporting)
- A quantitative approach combined with an analytical point of view
- Good organizational and planning skills
- Critical eye with a pragmatic approach and able to adapt easily
- Team spirit and collaborative approach while being able to act as an expert within the team
- Fluent in French or Dutch and able to communicate in English
