

LET'S IMAGINE OUR FUTURE TOGETHER

Brussels

PERMANENT CONTRACT

SENIOR NON-LIFE ACTUARY

addactis

MISSIONS

Among the team in Brussels, you will participate actively to the development of our activity with an international scope, to support local consulting teams and our partners abroad.

We are looking for a non-life senior consulting actuary who will become the technical reference for ADDACTIS® Worldwide, mainly on the following areas:

Technical support in non-life actuarial assignments and software implementation:

- Automation and analysis of non-life reserving in line with regulatory frameworks (e.g. Solvency II, IFRS17, etc.)
- Optimization of reinsurance programmes
- Financial modelling, ORSA, economic capital: audit and implementation of risk models, participation to risk management assignments, etc.

Research and Development in non-life actuarial:

- Participation to the improvement of new functions and methodologies in our reserving software addactis® IBNRS
- Participation in writing scientific papers
- Management of models development with our software addactis® Modeling

REQUIRED PROFILE

- You have a master's degree in actuarial sciences/from an engineering school or you have a scientific background combined with strongly developed quantitative skills.
- You have at least 6 years of Non-Life actuarial experience in insurance companies and/or consultancy firms. Consulting experience in this domain and/or knowledge of Non-Life tools (addactis® IBNRS®, ResQ, Pricing, Emblem, etc.) is an asset.
- You already assumed roles with responsibilities and strong implication in very tight timescale.
- You are an expert in P&C and you also have good relationship with clients.
- You are open-minded, creative, enthusiastic which makes you a great team player and you know how to take initiative.
- You are fluent in English (knowing other languages would be a plus).
- You have the ability to communicate and share your knowledge in a very multicultural environment.

PRACTICAL MODALITIES

The job will be based in Brussels. Frequent travels abroad are planned.

To apply, please send your resume and cover letter to recruitment@addactis.com

JOIN addactis®

addactis provides insurers and reinsurers around the world with actuarial and software solutions covering all their needs in terms of pricing, reserve calculation, reporting and modeling.

addactis brings together the skills of consultants and partners around the world and offers opportunities in France, Europe, Africa, Asia and Latin America.

addactis offers a unique combination between consulting, training and software publishing and recruits actuaries, risk engineers and developers who work in constant interaction to improve our global offer of actuarial and software solutions.

Our agile teams, organized by project in a start-up mode, represent a unique opportunity:

- develop your technical expertise on one or more of our actuarial software;
- to enrich your vision with a cross-cutting approach to insurance issues, from the point of view of "Software" and "Actuarial Technology";
- to integrate an international and multicultural environment where openness and a motto prevail: "Work Hard, Play Hard"!

ADDACTIS GROUP

For 25 years, ADDACTIS Group has developed a unique technical expertise to understand, model and manage risks. The group operates in 2 markets: the insurers, reinsurers, health insurance institution and companies by contacting the Human Resources Departments, Financial Departments and the Business Risks Department.

The strength of ADDACTIS group lies in the complementarity between our consulting and software publishing activities.

Present in 24 locations around the world, we recruit employees in accordance with our values: passionate, committed, pragmatic and opinionated. We strive to listen to them, to trust them, and to give them the means to surpass themselves, to blossom and to take pleasure in moving forward together.
