

POSITION: Risk Management Expert
LOCATION: Brussels, Belgium

DESCRIPTION OF THE POSITION

Our client, an insurance company, is looking for a Risk Management Expert for its Corporate Risk Management Department, which plays a central role in the development and monitoring of risk management within the company and reports directly to the CRO.

More specifically, the Risk Management Expert's main missions will be as follows:

- Evaluate and monitor the insurance company's risk profile in terms of its risk appetite, especially in relation to the risks associated to clients and technology behaviour changes. This includes the following areas of activity:
 - Data value management
 - Procedures digitalization
 - Process robotization
 - Exploitation of artificial intelligence
 - Creating ecosystems (e.g. through partnerships with start-ups)
- Help the organisation to set up an adequate and effective risk management framework, in particular with regard to the activities mentioned above (e.g. setting up a risk management framework relating to the use of artificial intelligence models within the company),
- Participate in the evaluation and follow-up of the strategy of the different lines of trades, in particular of their action plans, in order to mitigate the main risks,
- Participate in the recommendations and independent opinions formulation of the risk management function,
- Contribute to the internal risk and solvency assessment (ORSA),
- Proceed with ad hoc analyses and formulate opinions/advice.

PROFILE

- At least 10 years of relevant experience in risk management in the framework of the areas of activity, described above (concrete professional experience in the field of innovation is an asset)
- Excellent communication and interpersonal skills,
- Team-spirit mindset,
- Ability to adapt,
- Autonomy,
- Agility,
- Constructive criticism spirit.
