

# Senior Principal Risk Consultant Insurance

## Triple A Risk Finance Belgium

Triple A Risk Finance is an independent and innovative consultancy firm specialised in risk management and actuarial science. Triple A Risk Finance works for insurers, pension funds, pension administrators, banks, and businesses with a wide range of concerns. The head office of Triple A risk Finance is located in the Netherlands (Amsterdam) and we also have branches in Poland, Spain and Belgium. See: <https://www.aaa-riskfinance.be/>.

As we recently opened our Belgian practice based in Brussels, we are looking for a Senior Principal who will be co-leading the Belgian branch.

### Function

- Development and execution strategy of the Belgian branch supported by the Dutch head office
- Managing the Non-Life/Life/Risk Strategy Consulting practice of the Belgian branch, depending on the experience of the candidate
- Acquisition of projects in the Belgian market
- Managing and execution of insurance projects such as:
- IFRS17 implementation
- Solvency II related projects (model validation, actuarial function)
- Regular reporting projects (SII, IFRS)
- Specifying and modelling of modeling landscape of insurers
- Calibration analyses
- M&A projects.

### Profile

- Master's in actuarial science or equivalent, preferably IABE qualified actuary
- At least 10 years of experience within an insurance company or consulting firm
- Strong actuarial background
- Hands-on experience with actuarial software
- People management skills
- Able to grow and maintain clients network
- Dynamic and ambitious
- Fluent in French and/or Dutch and English.

### Offer

- Unique chance to take up a leading position in an international actuarial consulting firm
- Dynamic, young and international work environment
- Competitive salary.
