

POSITION: P&C Product manager
LOCATION: Brussels

DESCRIPTION OF THE POSITION

Our client is looking for a P&C Product Manager to join the product team, reporting to the Head of Product Management. The department develops profitable and customer-oriented products to contribute to the profitability of the company.

The position of P&C product Manager has an impact on the key corporate figures such as turnover, sales, claims expenses and profits.

The P&C product manager will develop and manage the P&C products for the direct market with the aim of increasing the company's market share and optimizing profits by responding proactively, quickly and adequately to the insurance needs of the customers.

The main missions of the P&C product Manager will include:

- The development of new products and update of existing products for the retail market:
 - In collaboration with other departments and working on pricing, acceptance, general terms and conditions, legal aspects, reinsurance and marketing;
 - Quarterly update of the data in the data analysis tool and creatively analyze and present them.
 - Development and improvement of the process for the product development and adjustment.
- P&C Portfolio and profitability monitoring:
 - Profitability analysis
 - Quarterly reporting
- Market analysis and following market trends and developments
 - Development and management of a central database
 - Product comparisons
 - Product characteristics, strengths and weaknesses
 - Regulatory monitoring
 - Update of the general terms and conditions
- Needs analysis
 - Capturing customer needs through other departments' feedback
 - Analysis of quotations and conversion prospects
- Other studies:
 - Internal communication on products and tariffs
 - Communication from official institutions and consumer organizations
 - Monthly and quarterly settlements of reinsurance claims.

PROFILE

- Master's degree in Actuarial Science, applied economics or equivalent
- Good technical, legal and fiscal knowledge on insurance matters
- Good knowledge of the non-life insurance market (supply and demand)
- Good knowledge of MS office tools
- Customer-focus approached
- Critical eye and analytical thinking
- Creative mind and flexibility
- Good communication and interpersonal abilities
- Team worker
- Dutch and/or French, knowledge of English is a plus.
