

Milliman Insurance Benelux

Field of activity in the financial industry: Actuarial consulting, Financial Risk Management, Data Science

Position: Experienced P&C actuary Brussels (fulltime)

For our Brussels office we are looking for an experienced P&C actuary to strengthen and further develop our team. Are you working in the actuarial field with experience in the Belgian insurance market and ready for the next step in your career? If you are searching for an exciting and intellectually challenging environment with experienced consultants as your colleagues, Milliman could be the right environment for you!

Milliman

Milliman is among the world's largest providers of actuarial and related products and services. Founded in 1947, Milliman is an independent firm with offices in major cities around the globe. We are owned and managed by our principals—senior consultants whose selection is based on their technical, professional and business achievements. Apart from the actuarial field, we also support our clients on financial risk management and data analytics assignments.

Who are we looking for?

Milliman Brussels is looking for a senior actuarial and financial risk professional with working experience and relevant technical skills in the Belgian non-life insurance market. You will bring your own unique experience, which will help you to further develop within our organization. We expect you to take the lead in executing consulting assignments and play an active role in developing our business.

The perfect Milliman candidate should be bright, energetic, able to maintain and develop client working relations, manage work and be a motivator for our analysts and consultants.

Requirements:

- Actuarial or technical studies background
- Actuarial consulting and/or relevant technical and managerial experience
- 5+ years of experience
- Energetic, intelligent and self-motivated
- Entrepreneurial, able to maintain and develop client working relations
- Effective communication skills; excellent verbal and written communication skills
- Good comprehension of the English language is a must as well as either French or Dutch

What do we offer?

We are offering a dynamic working environment with motivated colleagues. Furthermore, you will receive remuneration that is related to your performance. Your salary will be commensurate with your experience, and your bonus proportional to your personal contribution to the success and growth of the consulting practice.
